

12th 3DBODY.TECH Conference & Expo

Lugano, Switzerland · 19-20 October 2021

3DBODY.TECH 2021 - OVERVIEW OF THE ONLINE CONFERENCE PLATFORM

The 3DBODY.TECH 2021 online conference platform is accessible to all onsite and online attendees, speakers, exhibitors.

The online conference platform allows all attendees to access all live streams, all recorded contents, all group discussions and to use tools for networking (messaging, live chat, video calls) with other online participants, as well as with onsite attendees, speakers, exhibitors.

The online conference platform will be active 24h during the 2-days conference, allowing networking and discussion between participants from different time zones.

The online conference platform will be active and accessible to all attendees for 30 days after the end of the conference, allowing to view all recorded contents (live technical sessions, live exhibitors's demonstrations, single presentation videos) and to continue contacting/messaging with other participants.

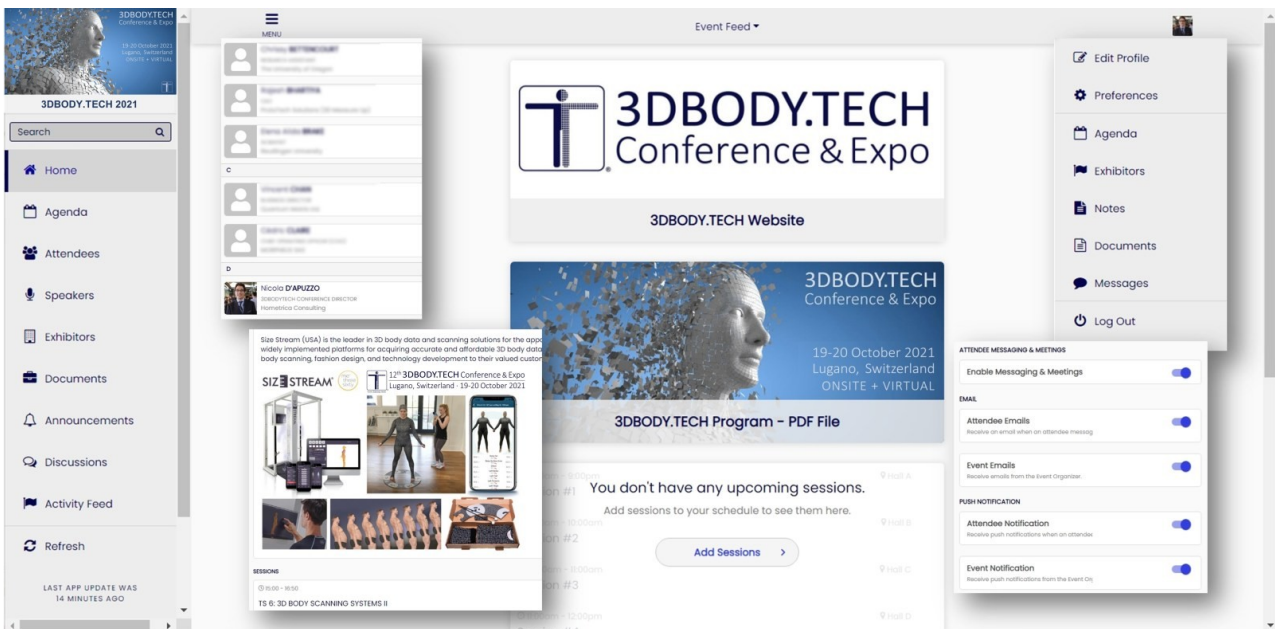

Main page - Access to all sections

The 3DBODY.TECH 2021 online conference platform has a clean design and is very easy to navigate and use.

The menu on the left side gives access to all sections: agenda, list of attendees, speakers and exhibitors, documents and announcements from us, group discussions and activity feeds.

Extremely useful is the search function at the top of the menu, allowing to find easily attendees, exhibitors, sessions, presentations.

The profile icon on the upper right corner gives access to personal settings, personal agenda, bookmarks and the message center. Note: all participants can edit their own profile and add photo, bio, documents, social media.

Agenda - Live streams - Recorded presentations - Papers & abstracts

The agenda gives access to all live streams and recorded presentations.

Table view and list view are available.

For a simplified understanding, the different tracks are displayed with the same color scheme as in the full program of the conference (available as PDF file from the Home and Documents sections).

Summary and information of the single sessions and/or single presentations are provided.

Single sessions can also be added to the personal agenda.

The dual-track live sessions can be joined within the platform.

During the live session, attendees can exchange messages by live chat and can ask questions.

The speaker and/or the session manager can choose which ones to answer at the end of the presentation.

The speakers participating at the session can also be contacted directly for later discussions.

The session pages also include papers/abstracts of the single presentations as PDF files.

Dedicated tracks in the agenda give access to the single recorded presentations;

these can be accessed anytime and will be available also after the conference (for a limited time).

A third track is dedicated to live streams from exhibitors, allowing attendees to see live demonstrations and/or presentations from the exhibition area and from exhibitors' offices.

The screenshot displays the 3DBODY.TECH 2021 agenda interface. The main view is a grid for Tuesday, October 19, with sessions categorized by track and time. A sidebar on the left contains navigation options: Home, Agenda, Attendees, Speakers, Exhibitors, Documents, Announcements, Event Information, Discussions, Activity Feed, and Refresh. The 'Agenda' sidebar item is highlighted. The main grid shows sessions such as 'TS 1: 3D BODY SCANNING FOR MEDICINE I' (09:20-11:00), 'TS 2: 3D BODY SCANNING SYSTEMS I' (09:20-11:00), and 'TS 3: 3D BODY SCANNING FOR MEDICINE II' (12:00-13:28). A detailed view for 'TS 7: 3D BODY PROCESSING' (17:10 - 19:00) is overlaid, showing three 3D body scan models labeled 'Scan 1', 'Scan 2', and 'Scan 3'. Below the scans, it lists 'Challenge: Mismatched 3D Body Scans' and '3D Measure Up - ProtoTech Solutions'. Another detailed view for 'TS 7: 3D BODY PROCESSING' (17:10 - 19:00) is also visible, listing session details and a list of speakers including Carol MCCONNELL, Randy K. RANNO, Alice BULLAD, Dinesh K. PAI, William GLASCOW, Warren WRIGHT, and Emma SCOTT. The interface includes a search bar, a filter button, and a table/list view toggle.

Networking - Live discussions

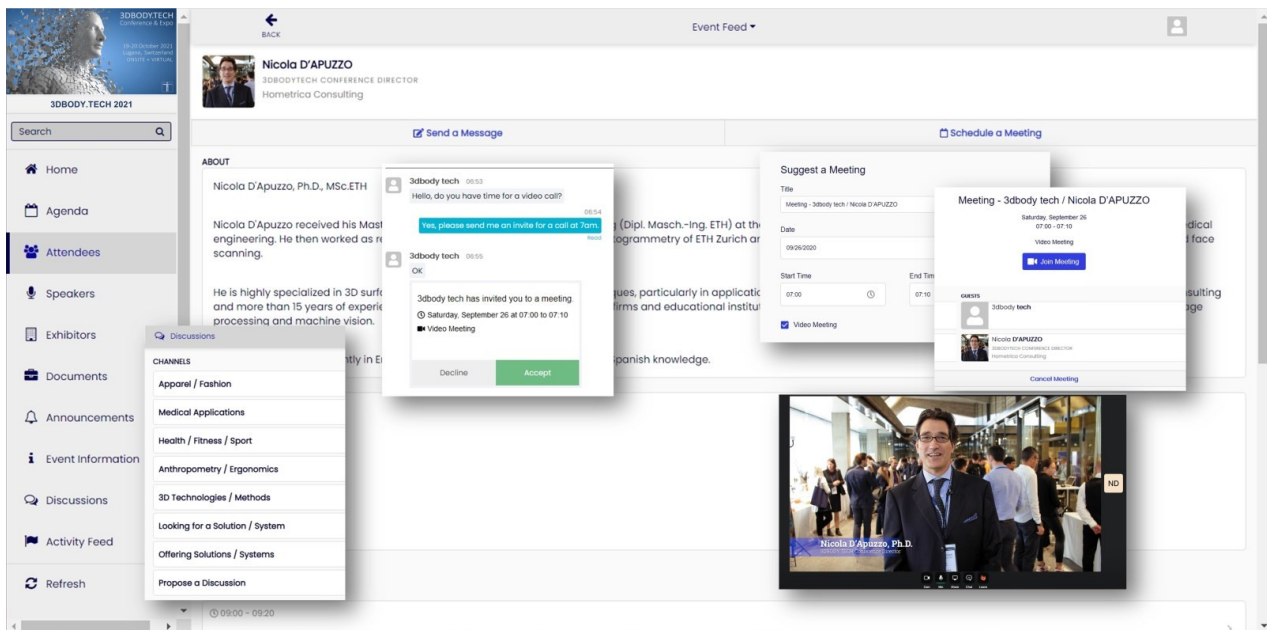

The online platform gives full networking and discussion possibilities between all onsite and online participants (attendees, speakers, exhibitors).

Attendees have access and can participate to group discussions within the platform. Different channels are proposed.

All attendees can send messages to other participants and schedule 1-on-1 video call meetings (note: if not desired, messaging and meetings can be disabled in the profile settings).

Video call meetings within the platform feature full possibilities as chatting and sharing screens. These meetings are fully private and secure.

Note: the online platform is active and accessible 24 hours during the conference days, allowing participants from different time zones to interact and discuss.

Documents

The following contents can be accessed and downloaded by selecting Documents on the Menu.

Full conference program as PDF file.

Lists of attendees as PDF files (sorted alphabetically by name and by company/affiliation).

Instructions (overview of the online conference platform, instructions for speakers, instructions for exhibitors).

Details for downloading the 3DBODY.TECH 2021 Conference Proceedings.
